- Release the button and your number is now set.
- Take care when setting the numbers not to release the button.
- Change the numbers to secure the lock and later re-enter your selected code to open.

### Charger Backpack

#### User instructions

To charge your mobile devices or portable power devices (power bank), place the solar panel, situated on the front of the backpack, in direct sunlight.

To charge your mobile devices you can use any of the two ports situated on the backpack. One on the inside compartment or one on the exterior right side. For each port, you will require a USB charging cable.

If using the exterior USB port, check the cable that connects the solar panel to the USB port is connected correctly through the central controller situated on the inside of the backpack.

**Note:** Solar charging is a slow process (around 100 mAh per hour) and its performance depends on the surrounding environmental conditions.

#### Specificaciones

Solar panel 6.5W, 5V/1.3A, output USB 2.0

### Care and Warnings:

1. Avoid scratching the surface of the solar panel.
2. Use of incorrect USB cables could damage this product and any connected mobile devices.
3. Do not submerge in water or expose to adverse weather conditions.
4. Keep product away from extreme sources of heat above 50°C and fire.
5. Avoid dropping the backpack, do not insert any metal objects and do not use improperly. If any fault appears, never try to repair the product yourself. Contact an authorized specialist.
6. This product does not store energy. Do not insert a USB charging cable in a different way to what is indicated in the user manual. If connected to a power source it could cause a short circuit.
7. Stop the solar charge immediately if the solar panel emits a smell, if the panel becomes extremely hot, or if there is any other abnormality.
8. Do not allow children to play with this product.
9. Clean the product with a dry cloth. Do not use water or abrasive products to clean.

**CE**  
MADE IN PRC
